# SHIELD

CANTON COMMUNITY COLLEGE  
CANTON, ILLINOIS

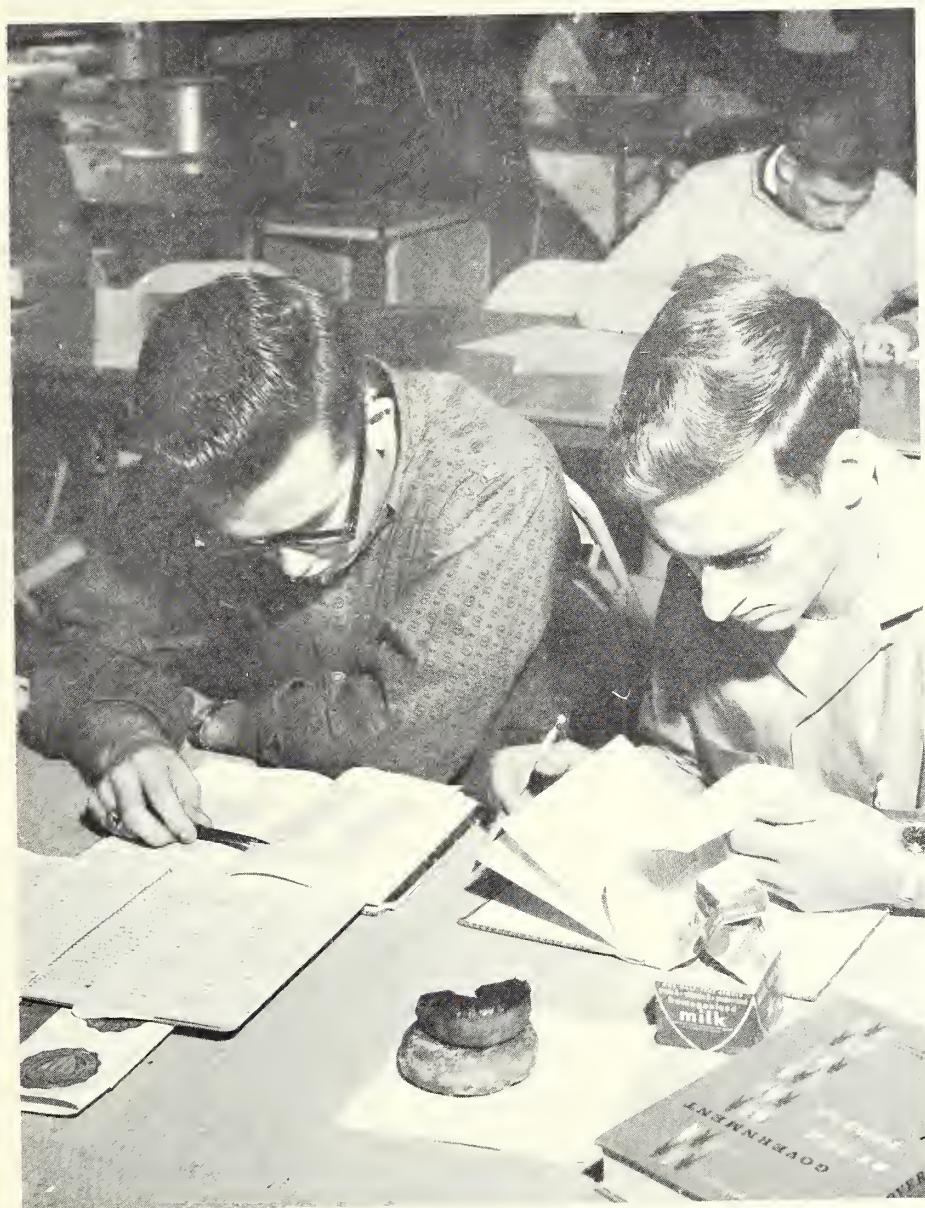

VOLUME ONE

## "Something New"

We, the editors, are proud to present to you, the faculty and the student body, another first for Canton College -- The 1962 SHIELD. Our theme, "Something New," is appropriate because for the first time we are presenting sixty-two pages of college life.

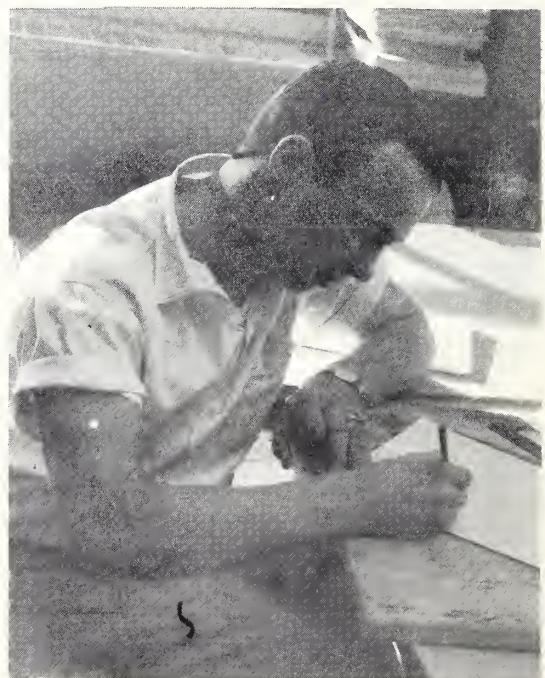

## ACADEMICS

Mr. Snowman, with diligence and patience, is persistently stressing the necessity of creativity as well as imitation.

## ART LEADS TO CREATIVE ABILITY

Compliments of: CAMPUS BOOK STORE and CANTON SUPER DRUGS

A cloud of concentration hangs over art class as Terry Opper sketches a design.

"At last, my masterpiece," says art pupil Judith Streetmatter to Michael McCants.

HOW TO SELL REFRIGERATORS TO THE  
ESKIMOS, a course vital to all aspiring sales-  
men.

Carol Mulica demonstrates her finger dexter-  
ity by operating an adding machine.

## BUSINESS — THE FOUNDATION OF OUR NATIONAL ECONOMY

Compliments of: McLUCKIE'S STORE and JACK AND BILL'S

All this and typing too? Sharon VanZant seems to have all the prerequisites for a good secretary as she puts in another busy day.

Comparative Anatomy offers many opportunities for Jack Toncray, Jerry Batterton, and Vernon Johnson to become acquainted with the fundamentals of living organisms.

## SCIENCES PROVIDE BACKGROUND FOR ALL DEGREES

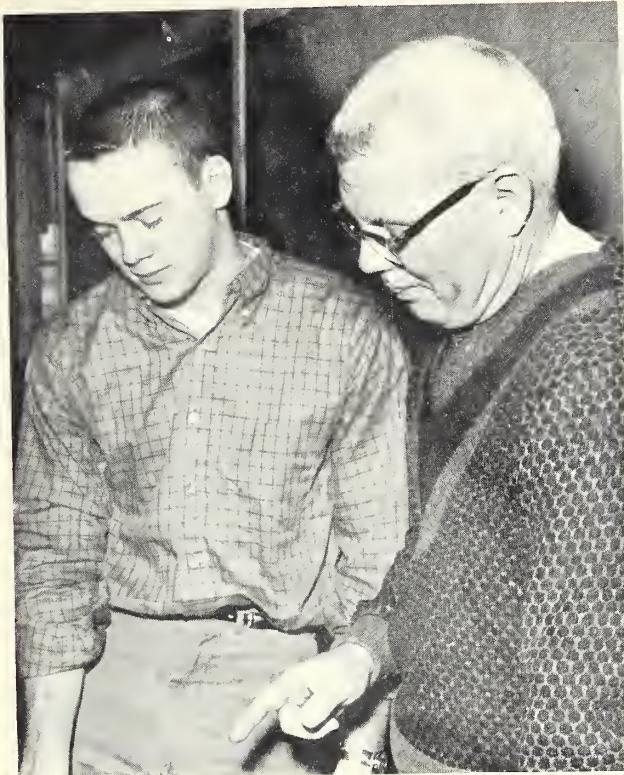

Students that fear the sight of blood should not take Zoology 101.

"Sure Edison began this way!" says J. Daily as he and G. Hoke ponder over Quan.

Compliments Of  
**NATIONAL BANK OF CANTON**

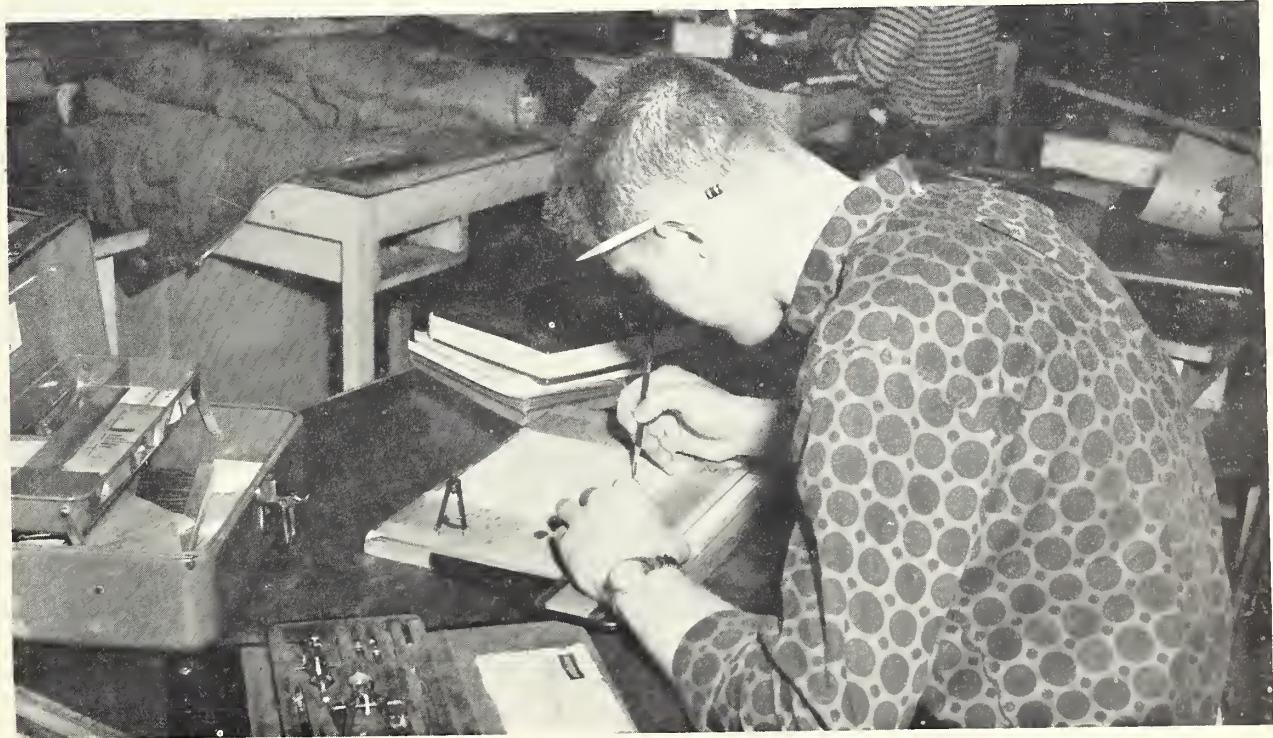

This is the formula that I stressed in class yesterday. Where were you?

We thought it was "basic" math — but what's so basic about trig?

Compliments Of  
REICHERTS

## MATH COURSES PROVIDE CHALLENGE TO STUDENTS

The theory of projections, although complicated, does not stump the able mind of Bill Cook. Descriptive Geometry is one of several mathematical courses offered at CCC.

Compliments Of  
CANTON DAILY  
LEDGER

Mrs. Sweeney explains Rhet. lesson to Lindsey, McGee, and Shields.

With the aid of Don Keefauver, Pat Waymack makes a hit in speech.

## ENGLISH IS THE FOUNDATION OF LANGUAGES

The ability of a student in any form of Rhetoric, they say, is to express himself clearly, concisely, and relevantly. In Journalism 281, students learn to follow the exact rules of grammar.

Graham Hospital's student nurses are kept constantly busy, not only in the hospital, but also in their college classes. In helping them keep their schedule, they commute by using the hospital bus.

## NURSES GAIN EXPERIENCE THROUGH PRACTICE

"Watch your best hand!" said Judy Paul as she and Judy Meford expertly dissect a cow's eye-ball in Human Biology.

How's your "systolic" (blood pressure) kid? These lovely nurses could raise anyone's blood pressure.

"Use form 2-b," says Dean Philip Osborn as he tirelessly instructs night students through the perils of preregistration.

Cary Bohanan and June Barnes requested that this picture be entitled "The Thinkers." Could it be that this title is misleading?

## MANY TAKE ADVANTAGE OF CCC'S NIGHT COURSES

Most people quit at five, but not Mrs. Sweeney and the students in her night Rhetoric class.

Professor Ronketto and CD Director, Sales award Mr. Berry for his completion of CD-200.

## **THE DEAN**

**DEAN OSBORN**

This is the FIRST yearbook published at Canton Community College. The SHIELD Staff has put forth every effort to make this yearbook a quality product. This book represents the most complete history of the college and will certainly provide a challenge to future SHIELD Staffs to equal or surpass the effort of this year's staff.

It's a privilege to be associated with Canton Community College during this year of rapid growth and development. On behalf of the students and faculty, I take this opportunity to thank the people of the community for making it possible to provide this educational opportunity.
